## Announcing Amateur Radio *Daily*

I was planning to announce this as a celebration of the 300th issue of ARW, but events transpired to allow this to happen much sooner!

[Amateur Radio Daily](#) is a web site (and [RSS feed](#)) highlighting additional and more timely events beyond what's featured in this email newsletter. So if you find yourself craving just a bit more Ham Radio news, please check out [Amateur Radio Daily](#).

It's all a big experiment and feedback is welcome. For more info around how this project came together, [read on](#).

73, Cale K4HCK

## Top links

### [AuGratin: POTA hunter utility](#)

AuGratin allows a POTA hunter to easily log contacts with activators.

[K6GTE](#)

### [Shortwave DB: Shortwave transmitter map](#)

For radio enthusiasts, DXers, or anybody with a shortwave radio to help identify shortwave signals or to view general broadcast schedules.

[Shortwave DB](#)

### [Simplest way to guy a telescopic fiberglass antenna pole](#)

My needs are fairly basic: rapid deployment, lightweight and uncomplicated.

[Ham Radio Outside the Box](#)

### [SolderBaloney and SolderTruth](#)

This is so nuts that it actually had me checking to see if this was possibly an April 1 joke. But alas, it is quite serious.

[SolderSmoke Daily News](#)

### [National Hurricane Center Amateur Radio Station annual test](#)

The Amateur Radio station of the National Hurricane Center, WX4NHC, located in Miami, will conduct their on-the-air test on Saturday, May 27.

## 102 US Representatives ask carmakers to keep AM radio

They also ask if past federal loans and subsidies could mitigate the cost of interference remediation.

Radio World

## Chairman of the DRM Consortium: DRM is smart and on the way up

It's versatile, flexible, and spectrum and energy efficient — so much more so than classic radio broadcast.

Radio World

## Marconi "T" HF aerial switch

It's quite easy to make your conventional Doublet, Dipole, or G5RV become a "T" antenna.
